SAT* VERBAL PREP - GROUP CLASS

Mercer Education’s **SAT VERBAL PREP** provides a comprehensive, effective learning experience that prepares students for the evidenced-based reading and writing-and-language sections of the SAT. Our curriculum offers a robust, integrative approach to understanding and applying standard *grammar rules*, *writing essentials*, *critical reading skills*, and *test-taking strategies* while also emphasizing *vocabulary building* and *time management*. Students have the opportunity to take multiple tests, systematically identify areas of weakness, and receive in-depth feedback and score analysis from experienced instructors while following a prescribed timeline of instruction that covers the essentials of SAT preparation in approximately five months (or two months during the summer).

The SAT Verbal group class runs as three separate comprehensive courses: a fall semester course from September through January (approximately 19 weeks), a spring semester course from February through June (approximately 19 weeks), and a 7-week summer course, which addresses the topics at a faster pace. Each course has its own unique content with *no repetition of material* so students can attend for as long as they like to continue honing their skills. (Curricula alternate yearly so students can attend up to 2 years without repeating.) While a majority of students enroll for longer periods in order to strengthen and refine their skills beyond familiarity with core content and achieve their target scores on the SAT, Mercer Education’s 2-month enrollment/billing cycle with pro-rated rolling admission provides maximum flexibility so that students can determine when they are ready to take the actual test. Students may enroll at any time (enrolling midway through the course is no problem) and receive a free assessment, after which they are assigned to appropriate groups according to level and availability.
